

FINANCIAL ASSISTANCE

HOW IT WORKS

JCHC is able to provide eligible patients with discounted medical care through its Financial Assistance Program. In order to qualify, a patient/patient's family must be current Iowa resident(s) and must fall within the Federal Poverty guideline requirements. Based on family size and where the household income lies, a discount of 10% - 100% could be applied to Hospital accounts.

Once a patient qualifies for JCHC's Financial Assistance, the application and approval percentage will be good for (6) months, at which time the approval will expire and a patient would need to resubmit an application to see if the financial situation has changed.

Please Note: Services performed by non-JCHC consultants (Specialty Clinics), Radiology Consultants of Iowa, Collaborative Lab Services, Midwest Ambulance, or any other third-party

affiliate not billed through JCHC will not be considered for Financial Assistance.

Additionally, previously discounted Hospital services, charges, and/or accounts will not receive additional discounting through Financial Assistance.
