WHY MAHARISHI

Who We Are

Welcome to Maharishi School, one of America's most unique and progressive schools. What began in 1981 as a single innovative school is now the model for a special kind of holistic education around the world.

You could have the most ideal school imaginable—best teachers, best facilities, best curriculum, and technology—but if students enter the classroom stressed, fatigued, or distracted, how much can be gained? At Maharishi School, the foundation of our college preparatory program is optimal alertness.

Our Core Values

CORE VALUES

Nurturing a Generation of Innovative Thinkers and Compassionate Doers

Our dedicated teachers and staff are committed to fostering academic growth and personal development. Through our unique program that is part theory, part practice, students learn to operate from a place of center. They learn how to imbue life with stillness, self-awareness, and presence. This lays the foundation for academic success and prepares students for all areas of future life. By knowing who they are, our students can more fully be themselves.

Respect

In our words and actions, we treat others with the respect we want and expect.

Service

We seek ways to serve others and to be good stewards of our environment.

Transcendence

Transcendental Meditation is a simple, natural technique that involves silently repeating a mantra to achieve a state of restful awareness.

Responsibility

We accept responsibility for our own thoughts, words, and actions.

Solutions

Whenever confronted by challenges or problems, we seek creative solutions.

CONSCIOUSNESS-BASED EDUCATION™

Invest in Rest

What if there was a way to optimize students' alertness? Every aspect of school life would be enhanced: assimilating and retaining knowledge, social and emotional development, physical health, and well-being.

That is why at Maharishi School, we "invest in rest" of a special kind. Twice a day, our students and teachers practice Transcendental Meditation™ and yoga. This allows them to gain deep rest and dissolve stress before it accumulates. It improves brain functioning. In a world of nearly incessant outer stimuli, it gives them a respite of inner silence, a connection with their own individual true self.

ACADEMICS

Our Programs

Preschool & Kindergarten

Our Preschool – two cozy classrooms and an inviting outdoor space – create a warm, secure environment. Our holistic, loving approach nurtures the full potential of both mind and heart, fostering joyful exploration and a strong foundation for lifelong learning in our youngest students.

P R E S C H O O L (3 - 5)

Lower School

Our Lower School approach uses cooperative groupings to emphasize and build essential communication and collaboration skills among students, fostering a collaborative learning environment. Small-group instruction in core content areas ensures each child, in grades 1-5, fully participates in their learning environment.

L O W E R S C H O O L

Middle School

Upper School

Our Middle School, grades 6-8, features a close-knit teaching team that prioritizes the whole adolescent, embracing our middle school students, fully recognizing that they represent a developmental group in their own right—learning to make friends, getting organized, and coping with personal changes are foundational to academic success.

Our rigorous college-preparatory curriculum provides students with the opportunity to excel academically while maintaining a strong inner sense of stability and calm. Students can take a deep dive into their passions, developing a strong academic portfolio, each to fulfill the purpose that is uniquely theirs.

MIDDLE SCHOOL

UPPER SCHOOL

BOARDING

Residential Program

Maharishi School is a global community with students and families representing more than 30 countries. Our school community is deeply enriched by students of diverse origin who come together to create global awareness and a vibrant school culture with rich traditions.

We know the decision to attend a boarding school far from home is not easy, and that it's an investment in the future. Because we believe that the world is our family, we take seriously our role as our students' extended family in the United States.

The Maharishi School boarding program is available to students in grades 9-12. Dormitory housing is located adjacent to the main academic buildings facilitating ease of access daily and comfortable, regular interaction with day students.

LEARN ABOUT RESIDENTIAL LIFE

SCHOOL CULTURE

Unity in Diversity

At Maharishi School, students epitomize diversity on every level, from the cultures they represent to the passions that drive them. The principle of “unity in diversity” is not a cliché here but a core value that is manifest when conformity isn’t socially mandated, when self-expression is encouraged, and when opportunities are afforded to explore, expand and share what makes each student shine. When this principle is fully realized, students are able to grow towards and fulfill their highest potential.

MEET OUR FACULTY

FAMILY EXPERIENCE

Discover the transformative power of a Maharishi School education.

“I’m a parent of a high schooler, and I wanted a small, caring school that still delivers big results. Maharishi School does exactly that. It regularly wins at state science fairs and sends students to International Science and Engineering Fair. The robotics and rocketry programs are strong, and kids receive hands-on makerspace STEM education from the early grades. In my view, it’s a standout in Iowa and competitive nationwide.”

The Learning...It Just Keeps Happening

Head of School News

Raise your hand if someone in your family has been sick lately...yep, that's pretty much everyone. One day recently, one-third of our Lower School students were absent. I've been so amazed by our community's resilience over the past few weeks, as students and teachers...
