

Inner Development

TRANSCENDENTAL MEDITATION TM®

Unlocking the Potential Within

The practice of Transcendental Meditation (TM) serves as a gateway to inner development, unlocking the dormant potential within each individual and propelling them towards outer success.

By cultivating clarity, resilience, creativity, emotional intelligence, and overall well-being, TM empowers individuals with the tools they need to thrive in every aspect of their lives. Through TM, individuals embark on a journey of self-discovery that ultimately leads to the fulfillment of their highest aspirations and the realization of their fullest potential. As the ancient adage goes, "Knowing yourself is the beginning of all wisdom."

TRANSCENDENTAL MEDITATION™

A Guide to Inner Development

Every single day, students and teachers at Maharishi School close their eyes and practice Transcendental Meditation™ twice, once in the morning and once in the afternoon, providing them with powerful rest and expanding their consciousness. Here's how this inner development translates into tangible outer success:

Enhanced Clarity and Focus

TM cultivates a heightened sense of mental clarity and focus. As the mind becomes less cluttered with stress and distractions, individuals can channel their energy toward their goals with unwavering concentration.

Reduced Stress and Anxiety

In today's fast-paced world, stress and anxiety are ubiquitous. TM serves as a powerful antidote to these modern afflictions, offering a sanctuary of inner peace and calm amidst life's storms.

Increased Creativity and Innovation

Inner development through TM unlocks the doors to creativity and innovation. By tapping into the wellspring of creativity that resides within, individuals are empowered to think outside the box,

explore novel solutions, and break through (OVERCOME) barriers to achieve breakthrough success.

Heightened Emotional Intelligence

TM fosters emotional intelligence – the ability to understand and manage one's emotions and empathize with others. This heightened emotional awareness cultivates stronger interpersonal relationships, effective leadership skills, and a harmonious work environment in both school and home.

Improved Health and Well-being

Inner development through TM extends beyond the realms of the mind, positively impacting physical health and overall well-being. Numerous studies have demonstrated the myriad health benefits of regular TM practice, including multiple markers of exceptionally deep rest and reversal of stress responses.

CONSCIOUSNESS-BASED EDUCATION

Hear from the students

INQUIRE TODAY!

Our Mission

To create an innovative Consciousness-Based educational environment where students think deeply and become creative, compassionate, contributing citizens of the world.
