

ARTS AT MAHARISHI

Unleash your child's inner artist

Our Creative Arts program fosters imagination, builds confidence, and develops essential life skills.

Our Creative Arts program is an essential part of a well-rounded education, fostering imagination, building confidence, and developing essential life skills. We encourage students to explore their unique voices and develop a lifelong appreciation for artistic expression.

Through hands-on experiences in drawing, painting, ceramics, crafting, and more, students learn to communicate their ideas visually, collaborate on projects, and

discover the joy of bringing their imagination to life. They explore different materials, master new techniques, and learn to see the world with a creator's eye.

Whether your child is a seasoned artist or just discovering their creative spark, Maharishi School offers a supportive and inspiring environment to explore their talents. Dive deeper and discover how our Creative Arts program can enrich your child's educational journey!

Creative Arts

The Program

Our Creative Arts program nurtures imagination and self-expression in students from grades 1-12. Through a diverse range of activities, students explore various art forms, develop critical thinking skills, and cultivate a lifelong appreciation for creativity.

Here are some key aspects of our program:

- **Exploration of Diverse Art Forms:** Students engage with a variety of art forms, including visual arts (painting, drawing, sculpture), music, drama, and dance.
- **Focus on Creative Process:** We emphasize the creative process, encouraging experimentation, exploration, and self-discovery.
- **Skill Development:** Students develop fundamental artistic skills while learning about art history and different cultural

expressions.

- **Self-Expression:** The program provides a safe and supportive environment for students to express themselves creatively and build confidence.

Our Creative Arts program is designed to foster well-rounded individuals who are confident, creative, and engaged with the world around them.

UPPER SCHOOL ARTS

Pottery

The Program

Pottery at Maharishi School is an introduction to the timeless art of ceramics. We will delve into the history and science of clay, learning how the correct tools and methods help us transform a simple lump of earth into a durable object of expression.

We answer the essential questions every new potter asks: Why did it blow up in the kiln? How do I keep the bottom from falling off? Why didn't the glaze turn out as I expected? We turn these moments of potential disaster into opportunities for learning, embracing a process that demands stability, adaptability, and growth. Through hands-on practice, you learn to navigate the challenges of clay and begin to express your unique creative vision.

As foundational skills are developed, the course culminates in an introduction to the dynamic and exciting Raku firing process,

exploring the American adaptation of this ancient Japanese technique.

Key Topics and Techniques

- The Nature of Clay: Understanding what clay is, its origins, and its chemical properties.
- Hand-Building Fundamentals: Mastering the core techniques of pinch pots, coil construction, and slab building.
- Introduction to the Potter's Wheel: Learning the basics of centering clay and shaping simple forms.
- Glazing & Firing: An overview of glaze chemistry, application methods, and kiln operation.
- Historical Context: Exploring the history of ceramics in the development of human culture through videos, discussions, and examples from the masters.
- Studio Practice: Keeping a detailed journal for inspiration, technical notes, and the development of self-critique.

Learning Outcomes

Upon successful completion of this course, students will be able to:

- Demonstrate Foundational Skills: Confidently use hand-building techniques (pinch, coil, slab) and create basic forms on the potter's wheel.
- Understand Materials: Explain the fundamental properties of clay and glazes.
- Develop Studio Habits: Maintain a detailed process journal and begin to effectively self-critique their work.
- Prioritize Safety: Demonstrate a comprehensive understanding and application of all studio and kiln safety protocols, recognizing safety as the paramount requirement.

Our Mission

To create an innovative Consciousness-Based educational environment where students think deeply and become creative, compassionate, contributing citizens of the world.
