C

artistic activities. The child has many opportunities to develop his or her senses, imagination, and imitative powers through activities such as painting, drawing, beeswax modeling, baking, gardening, outdoor exploration and free-choice play. Our program also emphasizes stories, songs, puppetry and circle games that mirror the yearly cycle. Carefully chosen playthings made of natural materials inspire great inner activity for the child's creative play.

GRADES PROGRAM

Children ages 6 and up experience the multidisciplinary approach to learning through the rhythm of the day.

There is a deep connection to the environment as our lessons are integrated with observations and interactions in nature. Our grades classrooms provides a calming influence for the focused learning and restful times of the day. The curriculum is taught in a block system, each being 2-4 weeks long.

Each Daily Rhythm consists of the following components:

- Main Lesson (subjects include Arithmetic, Language Arts, Form Drawing, and Nature Study)
- Recess in Nature
- Specialty Class (subjects include Painting, Ceramics, Eurythmy, Gardening, and more)
- Rest and Reading
- Forest Walk, Music, or Handwork
- Chores
